EDUCATION

M.Sc. Physics (Quantum Computing and Technologies)

2025 - 2028 (*Expected*)

University of Pisa

B.Sc. Physics

2021 - 2025

University of Pisa | Grade: 102/110

High School Diploma (Scientific)

2015 - 2020

Liceo Scientifico Antonio Vallisneri, Lucca | Grade: 100/100

SELECTED PROJECTS

QSVM Encoding Benchmark

2026

Evaluating the impact of different quantum data encodings on a Quantum Support Vector Machine. By exploiting the independence of the quantum kernel from the classical training, the project studies how different feature maps project data into distinct geometric spaces.

→ <https://github.com/damianomoscardini/qsvm-encoding-benchmark>

3D-Printed Mach-Zehnder Interferometer

2026

Design, construction and optical alignment of a desktop-sized, 3D-printed Mach-Zehnder interferometer to demonstrate wave interference.

→ <https://github.com/damianomoscardini/3d-printed-mzi>

3D-Printed Single-Photon Diffraction Experiment (B.Sc. thesis)

2025

Design and construction of a low-cost, 3D-printed experimental setup to demonstrate diffraction in the single-photon regime using an attenuated laser.

SKILLS

Programming & Software: Python (intermediate; scientific libraries, PennyLane) • MatLab (intermediate) • LabVIEW (basic) • LaTeX (basic) • AutoCAD (advanced)

Hardware & Tools: 3D printing (advanced) • Arduino (basic) • Raspberry Pi (intermediate)

Languages: Italian (native) • English (C1 - First Certificate)

EXPERIENCE

Mathematics and Physics Tutor

2020 - Present

Provide continuous academic support for high school and university students. Develop personalized teaching methodologies and preparation strategies for national exams and university-level courses. Collaborated with Centro Yep! (Lucca, 2020 - 2022) and continued with private tutoring.

ACADEMIC ACTIVITIES

IEEE QCE26

Toronto, September 2026 (Upcoming)

International Conference on Quantum Computing & Engineering | Selected as Student Volunteer

CISF26

Rome, 2026

Italian Conference of Physics Students | Attendee and Oral Presenter

SIPE25

Bari, 2025

Spanish Italian Physics Exchange | Attendee and Oral Presenter

LoT25

Pisa and Florence, 2025

Lights of Tuscany | Attendee and Poster Presenter

INTERESTS

- 3D Printing: Custom DIY projects, prototyping, lab equipment design and everyday functional prints.
- Piano: 11 years of practice.
